# WHO WE ARE

**Riverpell** was founded in the '60s as a small, handicrafts business that soon became known for its elegant, high quality products. And Riverpell is still producing **luxury items** today thanks to professionals specialised in working with the best and most prized leathers.

The words '**tradition**', '**skill**' and '**creativity**' have

long been associated with Riverpell which, with the passing of the years has become adept at combining leather working craftsmanship with technical innovation and technology.

So much so that today Riverpell is well placed to cater to all the needs of its large clientele, in a constantly evolving marketplace.

# PRODUCTS

Riverpell creates **exclusive products and samples**, starting from identifying the best leather for the task, right through to selecting accessories and finishings for the product. Our strong point is **luxury packaging**: boxes, overnight and 48- hour bags, cigar cases and jewelry cases, as well as gaming boxes and rigid vanity cases; all with wood or PVC frames hand-covered in high-quality calf or sheepskin, or more expensive options such as crocodile, ostrich or other

specialist skins.

Riverpell has often been commissioned to create accessories for high-end retail outlets, creating shop windows and display cases, drawers and trays, as well as custom **luxury furnishings**.

To meet the requirements of an ever-more demanding and sophisticated market, today Riverpell is also starting to supply the fashion industry with women's handbags and clutch bags: **unique accessories of their kind**.
